EDUCATION

Nanyang Technological University (NTU) <i>Bachelor of Aerospace Engineering, Honours (Merit)</i> - Exchange Semester at University of Sheffield (Sept 2023 - Feb 2024) - Winter Language Exchange at University of Mannheim (Dec 2024)	Aug 2022 - Dec 2025 <i>Singapore</i>
Singapore Polytechnic (SP) <i>Diploma in Aeronautical Engineering</i> 3-year diploma course including a 6-week overseas attachment and a 6-month internship programme	Apr 2017 - May 2020 <i>Singapore</i>

PROFESSIONAL EXPERIENCE

SIA Engineering Company <i>Engine Services Division Continuous Improvement, Intern</i> - Digitised Value Stream Mapping (VSM) workflows; built MS Access dashboards for LEAN project tracking and reporting - Mapped current/future states and facilitated stakeholder alignment during VSM reviews - Supported implementation of process improvements to reduce bottlenecks and improve cross-team coordination	May 2024 - Aug 2024 <i>Singapore</i>
Singapore Aero Engine Services Pte. Ltd. <i>Quality Control Department, Intern</i> - Developed a SQL- and VBA-based QC database to standardise data capture, storage, and retrieval - Eliminated ~80% of hardcopy QC records while improving traceability and audit readiness	Sep 2019 - Feb 2020 <i>Singapore</i>
AMECO Beijing <i>Student Engineer</i> Completed hands-on aircraft maintenance training: wire locking, tube bending, landing gear servicing, and structural inspection	Mar 2019 - Apr 2019 <i>Beijing, China</i>

PROJECTS

Optimal Foil Geometry for Flow Energy Harvesting <i>Final Year Project</i> - Designed and executed experiments on tandem flapping foils in water tunnel; processed datasets for performance comparison across geometries - Performed computational analysis using MATLAB to evaluate configuration sensitivity and identify geometry optimised for energy harvesting	Jan 2025 - Dec 2025 <i>NTU</i>
FlowRider FR25 <i>Aircraft Design Project</i> - Designed a modular aircraft from concept to preliminary design, including market analysis, sizing, and SolidWorks airframe modelling. - Delivered a team-based technical pitch with defined individual responsibilities and design justifications.	Aug 2025 - Dec 2025 <i>NTU</i>
WatchLingo <i>Engineering Innovation & Design Project, Team Leader</i> - Led a 9-member team to prototype a translation watch; coordinated scope, integration, and final pitch deliverables - Developed business plan and go-to-market proposal (market sizing, competitive positioning, distribution plan)	Jan 2023 - May 2023 <i>NTU</i>
Engineering Drawing Automation <i>Student Project</i> Built a Python tool to generate 2D engineering drawings with automated hatching	Jan 2023 - Apr 2023 <i>NTU</i>

LEADERSHIP & ACTIVITIES

SP Swim Team <i>Vice Captain</i> Managed team logistics and represented SP in inter-institutional competitions	Apr 2017 - May 2020
Clementi Town Secondary School Scouts <i>Senior Patrol Leader</i> Led troop to Frank Cooper Sands Gold award; represented Singapore at World Scout Jamboree (Japan, 2015)	Mar 2015 - Feb 2016

CERTIFICATIONS & SKILLS

Certifications: PADI Instructor (2026), NAUI Divemaster (2025), WSQ Security (2021), LinkedIn Finance Foundations (2020), Korean Language Cert (2017)
Technical Skills: SolidWorks, MATLAB, Python, C++, AutoCAD, Microsoft Suite, HTML, CSS, JavaScript
Languages: English (Native), Mandarin (Proficient), German (B1.1), French (A1.1), Korean (Basic)
